

History of Marine Science
Project
Due Date:

1. Jacques Cousteau and SCUBA
2. Nansen and the Fram
3. Dr. Ballard
4. The Alvin Submersible
5. Alfred Wegener
6. The Johnson SeaLink Submersibles
7. Christopher Columbus
8. Ferdinand Megellan
9. Captain James Cook
10. Matthew Maury
11. HMS Beagle
12. The Challenger Expedition
13. The Hunley
14. SeaWiFS
15. Rachel Carson and The Sea Around Us
16. GPS
17. The Glomar Challenger and The Glomar Explorer
18. Archie Carr
19. Bathyscaphe Trieste
20. Lethbridge”Diving Engine”
21. Newtsuit
22. Underwater habitat, Aquarius
23. Sealab I and II
24. The Meteor expedition
25. John Harrison and his marine Chronometers
26. Prince Henry the Navigator

Create a short PowerPoint Presentation on your assigned topic. The presentation should be between 5-10 slides. If it is a person, be sure to include where the person is from, what that person did, the importance to marine science, and any relevant multi-media examples you deem necessary. If it is a ship, be sure to include who built it, the purpose of it’s design, any important voyages it might have taken, how those voyages affected the study of the marine science, and any relevant multi-media examples you deem necessary. . If your topic does not fall into any of these categories, research your topic and create a presentation that includes a definition of your topic, how it relates to marine science, and any relevant multi-media examples you deem necessary.

The Presentations will be graded based on the following rubric.

- _____ (10pts) Student turned in a PowerPoint Presentation on his/her assigned topic.
- _____ (10pts) The first slide of the presentation included, name, due date, topic and some sort of multimedia.
- _____ (10pts) Student followed all directions for the project
- _____ (10pts) Student presented their presentation in a professional and proper way
- _____ (10pts) Presentation was grammatically correct
- _____ (10 pts) Presentation of a product made by the student that relates to the topic.
